The corridor is illuminated with bright green and blue light, creating a high-tech, cyberpunk atmosphere. The man is positioned on the left side of the frame, looking directly at the camera. ## PARTNERS FROM KLUBCOIN ECOSYSTEM

## CONNECTION WITH KLUBCOIN

KLUBLIST.

Klubcoin is the first cryptocurrency designed specifically with the electronic music industry in mind. It is already trusted by some of the world's strongest electronic music brands and is an empowering, fast-growing ecosystem that allows clubs, festivals, artists and DJs to offer crypto-ownership and rewards to their loyal fans.

It offers instant cashback and rewards when you purchase products and services with KlubCoin tokens from partners of the Klubcoin family

Klubcoin is launching during 2023, and it is going to be listed on some of the most popular CEXs and DEXs.

The same team is building Klubcoin and KlubList, and both projects have the same mission, to bridge the gap closer between web3 and the electronic music industry.

With the growth of NFTs, we realize the value of gathering a strong community around NFT projects and offering tremendous value to them. As an electronic music project, most of the KlubList utilities revolve around music and IRL perks.

The KlubList team has decided to over-deliver in that department with 2 sets of utilities for the future holders : general utilities and day-1 utilities.
